

ROHIT KUMAR

Automation Test Engineer

+91 9044086978 | rkb.sdet@gmail.com | linkedin.com/in/rkb-sdet/ | github.com/rkb-sdet | [Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented Automation Test Engineer with over 6 years of experience in both Automation and Functional Testing across E-commerce and enterprise applications. Strong expertise in building and optimizing test frameworks using Selenium WebDriver with Java, TestNG, and Page Object Model (POM), alongside modern tools like Playwright and TypeScript. Experienced in end-to-end test automation scripting, regression testing, and CI/CD integration using Jenkins, Azure DevOps, and Docker. Proven track record of enhancing automation strategies, leveraging Agentic AI to streamline processes, and delivering high-quality software in fast-paced Agile environments.

TECHNICAL SKILLS

- Selenium WebDriver & Playwright
- Java & TypeScript
- TestNG & Cucumber (BDD)
- Page Object Model (POM)
- Hybrid Frameworks
- Data Driven Testing
- Maven & Jenkins
- Git, GitHub & Azure DevOps
- SQL (Queries & Joins)
- JIRA & Defect Lifecycle
- Agentic AI Integrations
- Agile / Scrum

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS)

Oct 2025 - Present

Automation Test Engineer

Project: Arthrex Inc. (May 2026 - Present)

- Developed and maintained robust automation scripts using **Playwright with TypeScript**, ensuring comprehensive coverage and validation of new features.
- Enhanced and maintained the automation framework, integrating with **Azure DevOps** and **GitHub** for version control and cross-team collaboration.
- Leveraged **Agentic AI** within VS Code by creating custom agents to streamline tasks, prevent duplicate locators/methods, accelerate script fixes, and automate repetitive validations.
- Managed and optimized CI/CD pipelines using **Docker**, ensuring smooth and efficient test execution and deployment cycles.
- Performed functional and regression testing on new builds across QA and Stage environments; analyzed failures, identified legitimate bugs, and delivered daily regression reports.
- Transitioned validated manual features into automated test specs after analyzing requirements, designing scenarios, and executing initial test steps.
- Collaborated in Agile ceremonies (daily stand-ups, sprint planning, defect triage) and delivered cross-functional support to ensure faster feedback loops.

Project: Zurich Insurance Pvt. Ltd. (Oct 2025 - Apr 2026)

- Designed and executed automation test scripts using **Selenium WebDriver with Java**, ensuring robust coverage of core insurance workflows.
- Enhanced the automation framework by implementing reusable components and applying the **Page Object Model (POM)** for improved scalability.
- Integrated test execution with **Jenkins** CI/CD pipelines, enabling continuous feedback and faster product release cycles.
- Utilized **SQL** queries for backend validation, data integrity checks, and cross-verification of transactional records.
- Performed functional and regression testing across multiple modules, validating policy creation, claims, and customer service features.
- Logged and tracked defects in **JIRA**, participated in defect triage meetings, and managed the end-to-end defect lifecycle.

GlobalLogic Technologies Pvt Ltd

Feb 2021 - Sep 2025

Test Engineer

- Developed and executed automation test scripts using **Selenium WebDriver with Java** and **TestNG**, focusing on E-commerce domain applications.
- Contributed to the existing Hybrid Framework by enhancing reusable components and implementing the **Page Object Model (POM)** to improve test maintainability.
- Performed extensive Regression Testing, Smoke Testing, and Cross-Browser Testing to ensure stable application releases.
- Utilized **XPath** and **CSS Selectors** for dynamic web element identification, and handled synchronization issues using Explicit and Fluent Waits.
- Integrated test execution with **Jenkins** for Continuous Integration.
- Logged and tracked defects using **JIRA**, collaborating closely with developers and the QA team in a fast-paced Agile/Scrum environment.

EDUCATION

Master in Computer Applications (MCA)

2017 - 2020

AKTU University, Lucknow

Bachelor in Computer Applications (BCA)

2014 - 2017

CSJM University, Kanpur
